Highly motivated and detail-oriented Computer Science student seeking a Software Engineering internship. Eager to apply strong full-stack web development, AI automation, and hardware integration skills, along with experience developing robust client-server tools, to contribute effectively to a dynamic team.

EDUCATION

University of Texas at San Antonio (UTSA)

Spring 2025 – Spring 2027 (Expected)

Bachelor of Science in Computer Science • San Antonio, TX

Relevant Coursework: Statistical Methods and Applications, Data Structures, Programming in C

Northwest Vista College

Completed: May 2024

Associate of Science in Computer Science • San Antonio, TX

Relevant Coursework: Java Programming Fundamentals I & II, Calculus I & II, Precalculus • Certificates: Math Intensive Major Certificate

SKILLS

Programming Languages:	Python, Java, C++, C, C#, Kotlin, SQL, Lua
Libraries & Frameworks:	Next.js, React, Flask, PyTorch, Pygame, TensorFlow, OpenCV, Prisma, Tkinter
Developer Tools:	Git, GitHub CLI (gh), Ollama, RCON, Docker, MS Office
Operating Systems:	Windows, Linux, macOS

TECHNICAL PROJECTS

Minecraft AI Manager & On-Demand Server Idler (github.com/ColbyJacks/minecraft-Server-Idler)

2026

Developed a zero-player socket listener in Python that wakes up a Minecraft server on-demand by catching connection requests on port 25565.

Programmed a resource optimizer using RCON to safely stop the server when idle, reducing idle CPU and RAM footprint.

Integrated a Gemini-2.5-Flash assistant to scan server logs in real-time and broadcast AI responses to chat commands via RCON.

TCG Card Scanner Web Application (github.com/ColbyJacks/TCGScanner)

2026

Built a full-stack trading card collection and scanning web application using Next.js for server-side rendering and CSS for layout.

Integrated Prisma ORM to structure relational database schemas mapping card statistics, rarity tables, and player collections.

ESP32 LLM Voice Assistant (github.com/ColbyJacks/ESP32-LLM-Assistant)

2025

Designed a voice-activated LLM assistant utilizing ESP32 hardware to stream raw audio (PCM/RAW) to a custom Flask backend.

Integrated the backend with Ollama for localized LLM queries and optimized response latencies.

Algorithmic Trading & Portfolio Dashboard (github.com/ColbyJacks/Trading)

2025

Built a localized algorithmic trading package running quantitative mean reversion, momentum, and statistical arbitrage strategies.

Implemented an asset weight allocator and dynamic JSON-based ledger systems to securely log transaction histories.

ACTIVITIES & LEADERSHIP

ACM at UTSA (Association for Computing Machinery) • Officer

Feb 2025 – Present

NVC Esports and Gaming Club • Vice President

2023

NVC Esports Valorant Team • Team Member

2023

WORK EXPERIENCE

Legacy Home Health Care

April 2026 – Present

Caregiver / Personal Care Assistant • San Antonio, TX

Assist clients with activities of daily living (ADLs), coordinate healthcare tasks, and manage patient wellness reporting.

American Medical

Aug 2022 – March 2026

Caregiver / Personal Care Assistant • San Antonio, TX

Assisted clients with mobility and personal care, maintaining high housekeeping and support standards.

Amazon

Sep 2021 – Aug 2022

Warehouse Associate / WHS Ambassador (Beta Program) • San Antonio, TX

Operated Powered Industrial Trucks (PIT) for inventory management and maintained high accuracy during fulfillment cycles.
